

# GCSE PRODUCT DESIGN REVISION

## 2018

Exam date: Friday 22<sup>nd</sup> June 2018 @ 9:00

### Equipment you will need for the exam:

- Black pen
- Pencil
- Ruler
- Eraser
- Pencil sharpener
- Colouring pencils

You must bring these with you. Come to all revision lessons with this equipment.

### The paper

- The paper has two sections – A and B.
  - Section A is approximately quarter of the paper and you will need to research the around the following topic to help you to answer this section:
    - ***Food carriers for leisure activities.***
  - Section B will cover all aspects of the theory.
- The paper is 2 hours long.
- There are 120 marks available.
- Therefore, 1 mark = 1 minute. This will help you time yourself during the exam.
- You will answer all questions on the paper.
- Product design covers many material areas such as food, textiles and metals and these will have been taught in other schools. You should direct your answers to the topics you have revised for: Paper/Card, plastics and timber-based materials.

### Preparation

1. Much of the work you have done with your controlled assessment will be relevant for this exam.
2. You will find it useful to purchase the following revision guide. When you have this, label it clearly with your name and bring it to all revision lessons.
3. The most useful information will be given to you in each of your revision lessons. You will need to keep your notes organised and make sure you glue everything into your book in the lesson.
4. If you miss a lesson for any reason you must catch up before the next lesson. See your teacher for the notes.
5. You will be given exam papers to work from. Sometimes these will be used for completing questions and at other times you will be asked to write notes onto them. You **MUST** keep these safe and use them for your revision.
6. You **MUST** complete all homework set as this has been planned to ensure you are fully prepared for your exam. This will be uploaded onto Show My Homework.
7. In addition to the lesson work and homework you should make your own revision notes for key topics.
8. You **MUST** prepare for Section A. Your teacher will help guide you with preparation for this section.
9. The school web-site will be updated regularly with key resources used in the revision lessons. It will also have exam papers (Student information - Curriculum subjects - Design & technology – Year 11 – Product design).
