

# Music: 'On Top of the World' by Imagine Dragons

- This song was released in 2012 by American rock band Imagine Dragons.
- The song is a celebration of accomplishment for the band after striving for years to become successful.
- It talks of being on top of the world but also doesn't fail to mention that being at the top isn't an easy task. It encourages you to get up even when you hit the ground.
- The song is built on a sample of minimalist composer Steve Reich's "Clapping Music" from 1972 – this is the syncopated clapping rhythm that you can hear throughout the song.

Over to you....

- Think of something you would like to achieve in 2023
- What steps do you need to take to achieve your goal?
- How could the words of this song help motivate you to achieve this goal?

# English & Maths Progress Assembly

Autumn Mocks

# English Update

Where are you now? What is your goal?

## **WWW:**

- Stronger with Section B than Section A.
- Most of us attempted all questions.
- Good use of tier 2 vocabulary in our creative writing.

## **EBI:**

- Question 4- Evaluation- identifying writer's methods and analysing the effect of these methods.
- Technical accuracy- we need to proofread our work!
- Language analysis- embedding quotations and analysing the effect- do not just feature spot!

## **WWW:**

- Strong AO1- good understanding of the play and text.
- Most of us are using quotations.
- Most of us are writing about BOTH the extract and the wider text.

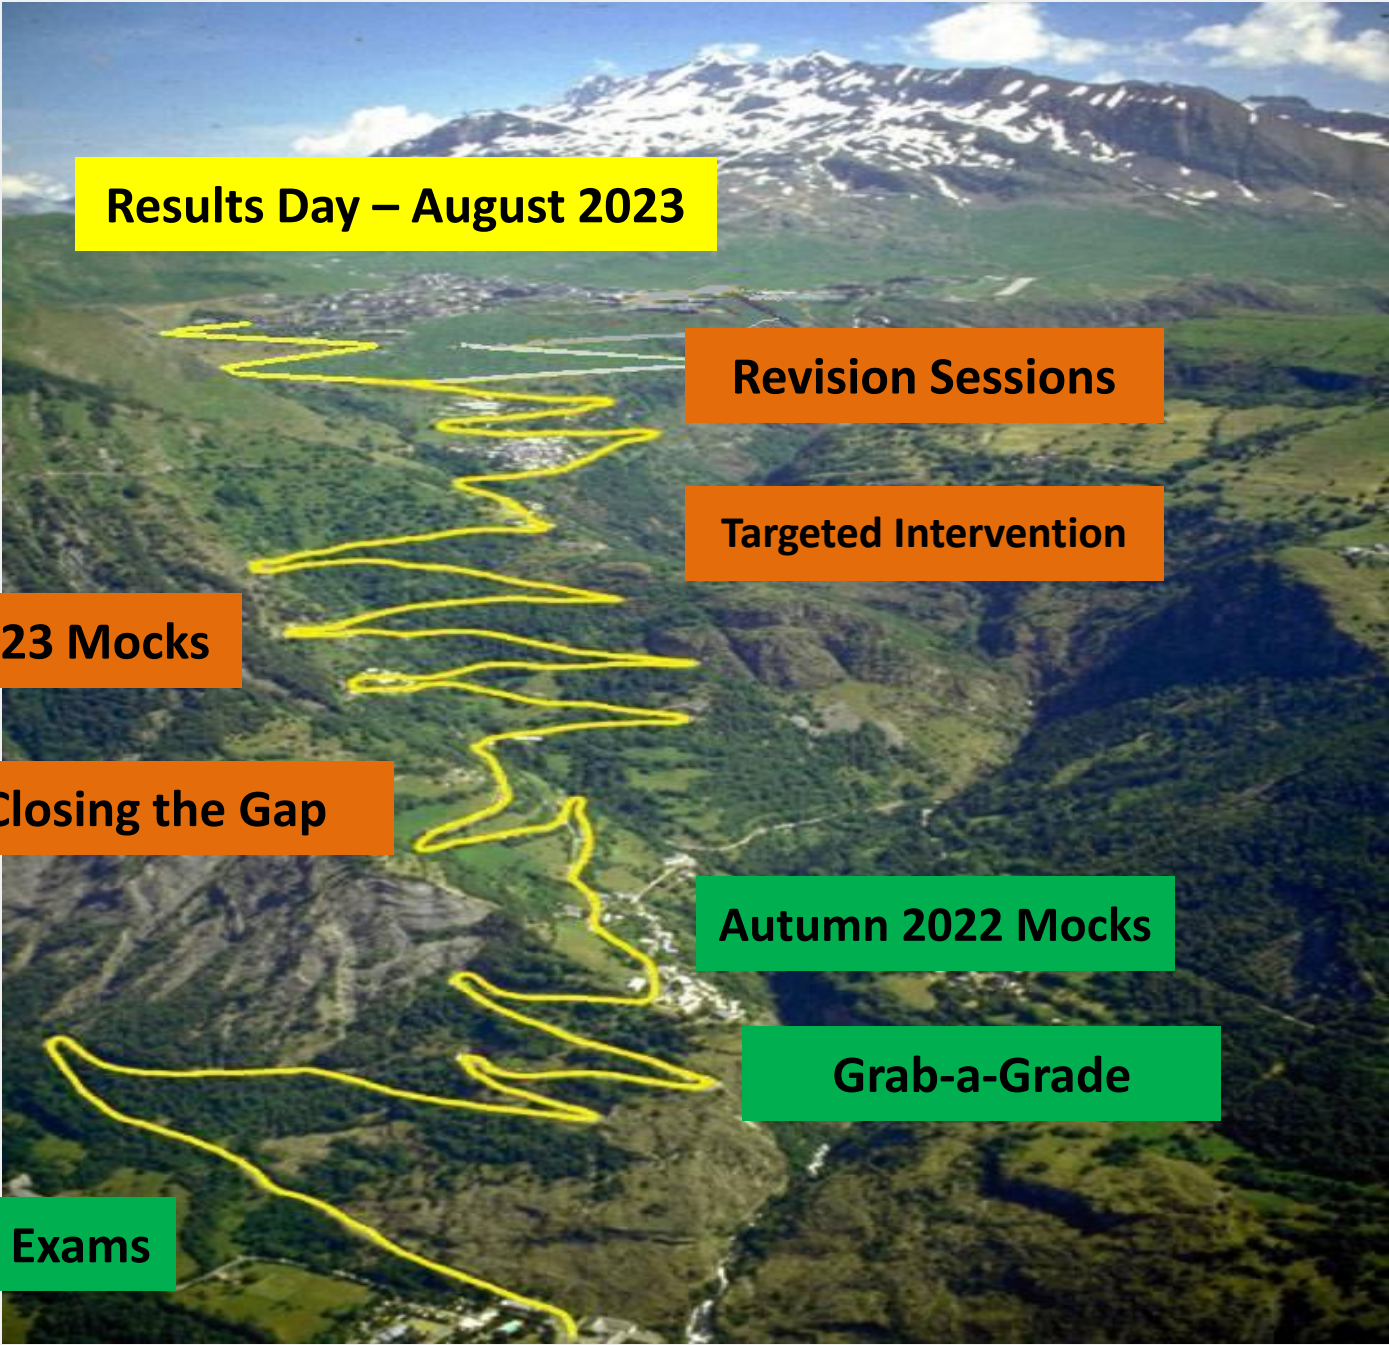

## **-EBI:**

- We need to make more use of the extract!
- Thesis statements!
- Embed quotations!

# Maths Update

Where are you now? What is your goal?

**Results Day – August 2023**

**Revision Sessions**

**Targeted Intervention**

**Closing the Gap**

**Autumn 2022 Mocks**

**Grab-a-Grade**

**EOY10 Mock Exams**

# Overview: Mathematics

## 11A1

- ☐ Use of full coverage booklets
- ☐ Higher content finished
- ☐ Exam practice

- ☐ Histograms
- ☐ Frequency Polygons
- ☐ Algebraic Fractions
- ☐ Venn Diagrams
- ☐ Data Interpretation

- ☐ Building flexible knowledge
- ☐ A-Level Transition
- ☐ Wednesday: Problem Solving Focus

## 11A2

- ☐ Standard Form
- ☐ Drawing quadratic graphs
- ☐ Direct proportion
- ☐ Error intervals
- ☐ Compound interest & depreciation
- ☐ Changing the subject

- ☐ Miss Harrison – Statistics and interpreting data
- ☐ Miss Adamska – Geometry inc. trigonometry

- ☐ Maximising marks at the beginning of the paper
- ☐ QLAs to target smaller issues and misconceptions in engage task

## 11H

- ☐ Expanding Triple Brackets
- ☐ Recurring Decimals to Fractions
- ☐ Prime Factorisation
- ☐ Indices
- ☐ Error Intervals
- ☐ Combinations
- ☐ Expanding Triple Brackets

- ☐ Drawing and Interpreting Quadratics
- ☐ Estimate of the Mean
- ☐ Box Plots & Cumulative Frequency
- ☐ Capture Recapture
- ☐ Trigonometry

- ☐ New higher content
- ☐ Exam Practice

# Overview: Mathematics

Re-shuffle

11P

11Q

11R

- ❑ Focus on one-markers – success with square roots, multiples, negative numbers, reflections & pictograms
- ❑ Covered the syllabus, allowing time to focus on exam technique

- ❑ Quadratics
- ❑ Exact Trigonometric Values
- ❑ Averages from Frequency Tables
- ❑ Reverse Percentages
- ❑ Quadratic Equations

- ❑ Estimation
- ❑ Related Calculations
- ❑ Speed, Distance & Time
- ❑ Worded Problems

- ❑ Plans & Elevation
- ❑ Ratio Worded Problems
- ❑ Averages from Frequency Tables
- ❑ Error Intervals

- ❑ Grade 5 Focus
- ❑ Multi-step problems

- ❑ Developing resilience with the second half of GCSE papers through walking talking mocks
- ❑ Problem Solving booklets
- ❑ Focus on Pythagoras Theorem – completed!

# Awards

English and Maths Progress

# Reason 1

They help you communicate with and understand the world around you

- It's impossible to go a day without using English and maths skills, and a good level of understanding means that you can have more control over things like:
  - *your finances,*
  - *communication,*
  - *a better understanding of issues such as politics and current affairs.*

- The majority of employers look for at least GCSE grade 4/C in each subject, so English and maths skills could be the difference between you getting the job or promotion you want or not.
  - *On average those who have a strong pass in both English and maths will earn £2000 more than those without both qualifications at the start of their career.*

## Reason 3

You're more likely to get into university and apprenticeships

- Strong passes in your core subjects will set you apart from the 1000's of other applicants applying for the same course for you.
  - Management at the University of Leeds specifies that you must have at least a grade 6 in English language and maths under your belt.
  - Psychology at the University of Bath asks for 'a strong set of GCSEs, such as grade A\*, 8 or 9 in at least five relevant GCSEs. Psychology links strongly to English (report writing and research) and Maths (Data Collection and Analysis).
  - The University of Birmingham's medical school, expects 8's or 9's in English **and** Maths in addition to the expected high grades in the Sciences.
  - Social work and secondary school teaching: these professions won't consider you without at least a grade C (or 4 or 5) in maths **and** English language at GCSE.
  - Nursing and primary school teaching: grade C (or 4 or 5) in GCSE English, maths **and** science.

- You will be expected to resit English and Maths if required.
  - *Not to punish you but because they are that essential.*

# Progress Awards

Progress in Language, Literature & Mathematics

Georgiana Lehanceau

Theo Rust

Joe Oliver

The image features two identical silver trophies positioned symmetrically on either side of the center. Each trophy has a wide, flared cup, a decorative handle with a scalloped edge, and a tiered base. They are set against a solid, bright yellow background. The text 'Timotheos Przemyski' is centered in the middle of the image, between the two trophies.

**Timotheos Przemyski**

# What next?

How are we going to ensure further progress?

# Maths: Preparing for May

- Next Mock Examinations – TBC
  - These are likely to be in in the latter half of term 3.

## Paper 1

## Paper 2

## Paper 3

All papers are **structured** in the same way:

- 80 marks per paper
- 90 minutes to complete
- No formula sheet
- Each paper can assess any topic on the curriculum

It is expected that some form of formula sheet will be given in the summer exams. You will be given one for your mock examination.

There are **three** types of questions:

**AO1:** Use and apply standard techniques

**AO2:** Reason, interpret and communicate mathematically

**AO3:** Solve problems within mathematics and other contexts

## Video tutorials

Converting between standard form and ordinary numbers

Converting between standard form and ordinary numbers

Adding numbers in standard form

Method 1: convert to ordinary numbers

$(3.4 \times 10^6) + (5.1 \times 10^5)$

$3400000 + 510000 = 3910000$

$3.91 \times 10^6$

Multiplying and dividing numbers in standard form

$(5 \times 10^6) \times (7 \times 10^3)$

## Exam Questions – in an easy to print version

mathsgenie.co.uk	Please do not write on this sheet	mathsgenie.co.uk
1 (a) Write $1.2 \times 10^3$ as an ordinary number. (1) (b) Write 0.003 in standard form. (1) (2 marks)	7 Work out $(8.69 \times 10^{-2}) \div (5.5 \times 10^{-3})$ Give your answer in standard form. (2 marks)	
2 (a) Write 42 900 000 in standard form. (1) (b) Write $3.61 \times 10^{-3}$ as an ordinary number. (1) (2 marks)	8 (a) Write 0.00931 in standard form. (1) (b) Write $7.429 \times 10^3$ as an ordinary number. (1) (2 marks)	
3 (a) Write $9.516 \times 10^6$ as an ordinary number. (1) (b) Write 0.0724 in standard form. (1) (c) Calculate $(8.694 \times 10^2) \div (6.21 \times 10^{-3})$ Give your answer in standard form. (2) (4 marks)	9 (a) Write $5.2 \times 10^{-1}$ as an ordinary number. (1) (b) Work out the value of $(3.2 \times 10^2) \times (6.5 \times 10^4)$ Give your answer in standard form. (2) (3 marks)	
4 (a) Write $5.12 \times 10^{-5}$ as an ordinary number. (1) (b) Write 5 600 000 in standard form. (1) (2 marks)	10 Write $0.21 \times 10^6$ in standard form. (1 mark)	
5 (a) Write 0.0065 in standard form. (1) (b) Write $3 \times 10^4$ as an ordinary number. (1) (2 marks)	11 Work out $(6.7 \times 10^4) \times (3.4 \times 10^{-5})$ Give your answer as an ordinary number. (2 marks)	
6 (a) Write $3.08 \times 10^{-5}$ as an ordinary number. (1) (b) Write 5 million in standard form. (1) (c) Calculate $(6.3 \times 10^5) \times (2.5 \times 10^{-3})$ Give your answer in standard form. (2) (4 marks)	12 Work out $\frac{0.03 \times 0.02}{0.008}$ Give your answer in standard form. (3 marks)	
	13 Work out $\frac{3.744 \times 10^9}{2.4 \times 10^5}$ Give your answer in standard form. (2 marks)	

## Mark Scheme (Solutions)

1 (a) Write $1.2 \times 10^3$ as an ordinary number.	120 000 (1)
(b) Write 0.003 in standard form.	$3 \times 10^{-3}$ (1)
(Total for Question 1 is 2 marks)	
2 (a) Write 42 900 000 in standard form.	$4.29 \times 10^7$ (1)
(b) Write $3.61 \times 10^{-3}$ as an ordinary number.	0.00361 (1)
(Total for Question 2 is 2 marks)	
3 (a) Write $9.516 \times 10^6$ as an ordinary number.	9 516 000 (1)
(b) Write 0.0724 in standard form.

## GCSE Revision

Video tutorials, practice exam style questions and answers.

## Edexcel GCSE Papers

Edexcel GCSE past papers with model solutions and video explanations.

Easy to use mark scheme  
(official one available too)

Answer ALL questions.

Write your answers in the spaces provided.

You must write down all the stages in your working.

1 Write the following numbers in order of size.  
Start with the smallest number.

0.32      0.4      0.35      0.309

*0.309, 0.32, 0.35, 0.4*

(Total for Question 1 is 1 mark)

2 Here is a list of numbers.

5      11      18      22      29

From the list, write down a multiple of 3

*18*

(Total for Question 2 is 1 mark)

Paper: 1MA1/1F			
Question	Answer	Mark	Mark scheme
1	0.309, 0.32, 0.35, 0.4	B1	for 0.309, 0.32, 0.35, 0.4
2	18	B1	cao

## Invite-only intervention

- Tuesdays; 4.00-5.00pm

## Grade 9 Support

- Optional
  - Tuesdays; 8.00-8.30am
- Last 4 questions of higher paper with Miss Kaur

## Higher Additional Exam Practice

- Optional
  - Tuesdays; 4.00-5.00pm
- Developing Exam Technique with higher papers

## Foundation Additional Exam Practice

- Optional
  - Wednesdays; 4.00-5.00pm
- Developing Exam Technique with foundation papers

## **Lesson time is valuable!**

- Next term, in Language lessons, we will be focusing on Language Paper 2. You will be guided through each question and regularly skills tested (using the teach-blind approach).
- In Literature lessons, we will have a poetry focus (2 lessons Power and Conflict, 1 unseen) for the first 4 weeks. In Week 5, we will move onto your 19<sup>th</sup> Century revision.

## **Other than lessons....**

- Mock feedback sessions- use this time to reflect, address areas of development and make progress.
- Student voice survey.
- Term 3 “mini grab a grade” during tutor time focusing on grade 3 /4 borderline.
- Stretch and Challenge and Revision clubs and drop ins after school.
- We will be assigning English mentors for those of you who are close to the next grade and just need a little push to get there.
- All text books are available to purchase on wisepay, including revision guides.
- Revise, revise, revise!

## How should I revise for English Language?

- In Term 3 you will be given a mock paper to take home. As you are taught the skills for each question in lessons, reflect on this and try out the same questions at home. Hand these questions in to be marked and use this feedback to inform areas you need to develop on.
- Read! Reading for pleasure in your own time can teach you how to construct narratives and use techniques seamlessly in your writing. It also improves your vocabulary.
- Improve your creative writing by writing short stories at home. Hand this in to be marked.
- Transactional writing requires you to be knowledgeable about the world. Read the news, look up things that interest you!
- Turn your research and interests into speeches, letters and articles. Use this as a forum to express your opinions. Hand your transactional writing in to be marked!

## How should I revise for English Literature?

- Step 1: Make sure you **know** the plays, novella and poems.
  - Re-read them.
  - Create a timeline of the plot.
  - Create posters, mind-maps, revision cards of the characters and key themes.
  - Create a bank of key quotations. Learn the quotes using strategies which suit your learning needs.
  - Create relationship maps and character grids.
- Step 2: Ask for exam questions. Plan and write up your essays. Time yourself. Get teachers to mark your responses and give you feedback.

I had to put the work  
in every single day

For the most part these  
results are down to working  
hard in all lessons.

'I did two hours of revision a night in  
Year 11 so that by the time exams  
came around I didn't have to worry  
as much. I stayed behind a lot after  
school and the teachers were really  
helpful. I would advise students to  
push themselves to work as hard as  
they can.

When I got home I would think  
about all the things that I had  
been taught during the day to  
consolidate my knowledge.

I revised practically every night so  
it was about doing consistent hard  
work. I would advise students to  
work hard because consistency is  
the key to this, mainly focusing in  
lessons and making the most of  
your time, asking the teacher for  
help if you need it and just  
concentrating.
