

December 2024

Thank you!

Thank you for the support you have given CTS Students over the last 12 months.

Our students value your expertise and have thrived under your influence

CAREERS FAIR 2025

13th March 2025

All of our partners have a guaranteed stand at our careers fair. All year groups as well as parents will be attending.

If you haven't done so already please confirm your attendance asap.

2024 HIGHLIGHTS

CTS Approved Partners

In the summer we presented our plans for Careers Delivery within CTS and asked local businesses to sign up as a CTS Approved Partner.

From this event we gained 130 partners who will all receive the CTS Approved Partners Badge and have access to numerous benefits.

Work Experience

Many organisations have provided placements for over 110 Year 10 students since November 2024.

We still have over 70 students going out in January and we could not have done as well as we have without the support of local businesses.

Careers Pop Up Shops

Organisations have been visiting the school and popping up their banners over the lunch period to talk to students.

This has been a huge success increasing awareness of local FE, HE and Employment opportunities.

SOCIAL MEDIA

Follow Corby Technical School on:

- Facebook and LinkedIn

All interactions and photos with our partners are posted online

Gatsby Benchmarks

CTS Are already hitting 100% against the Gatsby Benchmarks - these are the standards set by the Careers and Enterprise company to ensure effective Careers Related Learning is being delivered.

This could not be achieved without the help of our business partners.

Student Successes

Sixth Form are unstoppable!

Year 13 are applying for Degree Level Apprenticeships from Software Developers to Aerospace Engineers as well as many University Applications being submitted.

Year 12 are being accepted onto programmes such as Future Leaders and the Access Project and the Crimson Programme as well as internships, work experiences and part time jobs being taken.

Year 11 Students are more proactive than ever!

Miss Lomas is working with all students who do not yet have next steps applications in place to ensure they get their applications in and are preparing for interviews - there is a great variation between those who want to study A Levels, attend College or start Apprenticeships

Year 10 are proving that CTS Students really are the most employable in Corby

With work experience well under way we have been having such positive feedback about our students - they have been offered holiday work, offers to return for more experience and even an offer of an apprenticeship!

Year 9 Students are making the first of their career related choices!

There is a lot to consider when choosing what subjects to take for GCSEs - we are encouraging our students to consider their career paths and how subjects might relate to them.

If you would like to work with our students in any way please contact Shona Lomas on 01536 213100 or email shona.lomas@corbytechnicalschoool.org
