

Accessing Adobe Software (including Photoshop) from home

As a result of school closure, student access to Adobe Creative Cloud in classrooms is not available. Adobe has provided temporary at-home access for students and educators, so that they can continue their work remotely. Please follow the instructions below to enable access to Creative Cloud Desktop Apps on your personal device.

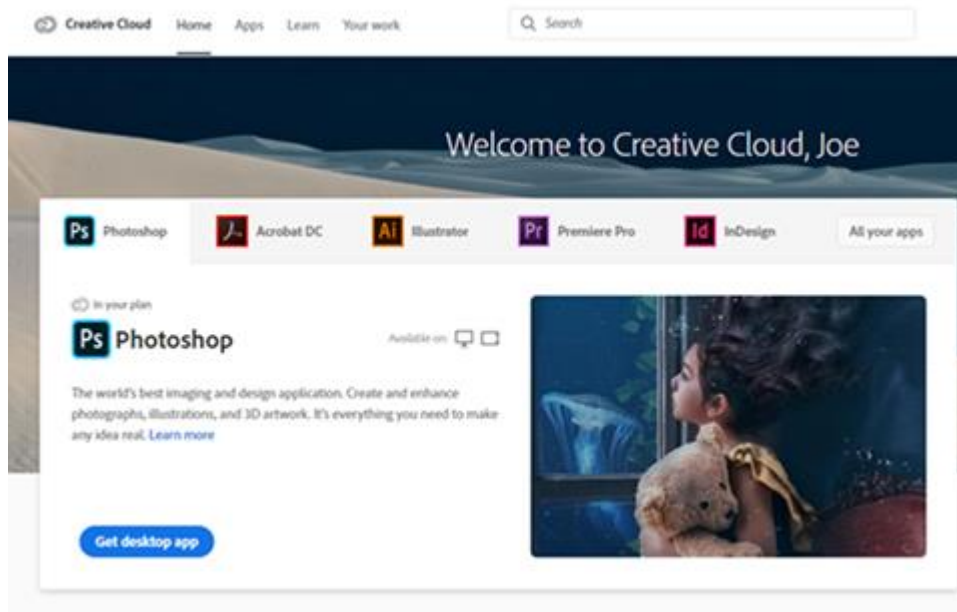

1. Visit <https://creativecloud.adobe.com> and use your school login details (your full school email) to sign in.

2. If prompted, select Company or School Account and then enter your password. Or provide your login details in your school's login screen.

3. From the Creative Cloud website, browse for and download your desired app. Click **Apps** on the top of the page to view all apps. (**You should only download the apps you need – they take up a lot of storage space!**)

For more information on how to download or install apps, see [Download and Install Creative Cloud apps](#).

For educators and school leaders seeking to engage students during campus closures, Adobe has curated resources to help them discover inspiring projects, best practices, and new ideas so they can continue to drive valuable learning in virtual environments. For more information on Adobe's distance learning resources [please click here](#).
