

4th March 2024

Dear Parents/Carers

Re: SEND Information Evening – Wednesday 20th March 2024

I am writing to inform you about an additional evening event in school for parents and carers of students with Special Educational Needs and Difficulties. This will be an opportunity for you to find out more about the ways in which we support our students with their education at Corby Technical School.

At our SEND information evening, you will hear from our SENDCo and Teaching and Learning lead. We will share with you how the school responds to your child's needs and offer insights as to how we ensure our staff training programme enables the best outcomes for our learners. During the evening, you will also have the opportunity to experience some of the strategies utilised by staff in supporting our students. For example, we will demonstrate how the Education Endowment Fund's *Five-a-day* principal informs the whole school strategy and the approach taken by each subject team within the school. There will also be an opportunity on the evening to book in a further time in which you can discuss your child's needs specifically with the SEND team, if this is something you would like to do.

To ensure we are prepared for your attendance at this event, please can you book yourself a place via the Parents Evening booking system [here](#). If you have any further questions, please contact our SENDCo, Mr Toye via enquiries@corbytechnicalschool.org.

Yours sincerely,

Miss Anna Jenkins
Senior Vice Principal
