

3<sup>rd</sup> December 2024

Dear Parents and Carers,

### Re: Supporting Student Learning with Revision Guides

Following the recent mock exams, we will take the opportunity to analyse the results and gain a clearer understanding of each student's strengths and areas for improvement. It is our shared goal to ensure every student achieves their full potential, and targeted support is a key element in this process.

To aid in your child's learning journey and to strengthen their preparation for upcoming exams, we highly recommend purchasing revision guides tailored to their subjects. These guides are invaluable resources that provide clear explanations, practice questions, and exam-style tasks to enhance their understanding and consolidate knowledge. They are also particularly useful for supporting homework tasks and independent study.

Why Revision Guides Are Important:

- They align closely with the curriculum and the exam specifications.
- They help students focus on key topics and improve their confidence in weaker areas.
- They offer practical tips and strategies for answering exam questions effectively.
- Staff will direct individual students to these as part of their revision and homework based on their personalised learning checklist

The guides we recommend are the CGP revision guides and the workbooks to ensure that the revision your child is carrying out is active, these are available on wise pay at a cost of £13.25 for combined science and £22.50 for all 3 triple sciences. Alternatively, there is a bundle which also includes the revision question cards at a cost of £18 for combined science and £30 for triple science. **These will be available to purchase on Wisepay until Friday 6<sup>th</sup> December and we are hoping these will be ready for students to collect on Tuesday 10<sup>th</sup> December during their Session 6.**

We are committed to ensuring all students have access to the resources they need to succeed. In line with this there is also a possibility to pay in instalments. If there are any other financial barriers regarding this, please contact the school via [enquiries@corbytechnicalschool.org](mailto:enquiries@corbytechnicalschool.org).

Thank you for your continued support in helping your child achieve their best.

Yours sincerely,

Mr J Foreman  
Raising Standards Leader
