

Dear Student,

At Corby Technical School you will begin your KS4 journey a year earlier than most schools to give you an opportunity to focus on the areas that are most important to you and the subjects you enjoy the most. Year 9 is a foundation year where you will be engaged and enthused by your subject choices and able to explore the subjects you have chosen and develop the skills that enable you to be successful.

Corby Technical School has ensured there is a range of choices available to you. It is important that you make the right choices and you should seek advice from your teachers, tutor and parents/carers about your future. The grades you achieve at GCSE and the subject choices you make at this point will have a significant impact on your options post-16 and post-18. As a school we will review your options to ensure that you have challenged yourself and set realistic goals that will result in you being successful.

The structure of the KS4 curriculum is included in your options pack. We expect all students to take Spanish and either History or Geography. You may of course choose to take both History and Geography if you enjoy both. There are some combinations of subjects that do not go well together, these are listed on the options sheet.

As a school our aim is to make sure that you are able to study the subjects of your choosing. However, it is important to note that there may have to be some changes once you have submitted your form. Please complete your options form by Friday 10th May 2019. You must give this to your tutor to be signed off.

Yours sincerely,

Mrs A Reynolds
Principal
