

12th June 2020

Dear Parents/Carers,

YEAR 10 BLENDED LEARNING

Thank you very much for your responses to confirm whether your child we be attending school on their designated day from next week. We are expecting more than 85% of students to attend.

As your child will now be learning at school as well as at home, we have set out some more information to explain how your child can structure their learning across the week as part of our blended learning approach. For children who are not able to attend we have also provided a clear pathway for at-home learning.

Your child will have received a link to a video in their tutor group team on Microsoft Teams that explains more about the changes to the online learning provision. This video can also be viewed on our school website in the [Year 10](#) home learning section. A weekly schedule has been shared that will help students to organise their time, as it will guide them to specific subjects on each day of the week, including learning for their other options subjects.

Yours sincerely,

Angela Reynolds
Principal
