

11th June 2021

Dear Parent/Carer

Re: Dyson Day - the University of Cambridge Engineering Department Friday 18th June

I am delighted to inform you that your child has been selected to take part in the above event. In previous years we have been fortunate enough to take a group of Year 9 students to a Cambridge University Taster Day at the Dyson Engineering Department. This year we are doing things a bit differently in that the event will run remotely, so students will remain in school and will engage with the activities by video link.

During the day students will have the chance to learn about the world class engineering department of the University and take part in several practical, hands on activities. Although there is an engineering focus for the day students do not have to be interested in pursuing a career in this field – the intention is to give students an experience of university life and opportunities in a world class institution.

I anticipate that the event will run entirely within the normal school day, students will be working in the workshop and DT study area and accompanied by Mr Godfrey.

If you have any questions, please contact me at larnold@corbytechnicalschool.org.

Yours sincerely,

Mrs L Arnold
Vice Principal
